

January 3, 2018

Dear Valued Partner:

Please accept this document as notification that effective 31 March 2018, Image Sensing Systems, Inc. (ISS) will no longer be offering the Autoscope Pn-501 for sale. The final shipments for this product will be 20 July 2018. ISS will honor our warranty obligation for this equipment until 31 March 2020, at which time we will no longer support or repair and the product has reached the end-of-life. We strive to provide hardware support for years following the end of sale announcements.

The Autoscope Pn-501 video detection product was introduced into the traffic management industry in 2012. The parts necessary to build this product are now less available. As a result, ISS must discontinue this model of video products. In planning for this event, ISS will continue to sell and support alternative products, please see below.

Please contact your regional distributor, or ISS customer support to assist with an upgrade and maintenance replacement plan to fulfill your future video detection needs.

Affected Products or Service

Product	Part Number	Replacement/Upgrade Suggestion
Autoscope Pn-501	Pn-501 ZNX:DET-086-000020	Autoscope Pn-520

Thank you for your continued business. We look forward to hearing from you on how we can assist you with your traffic management goals.

Sincerely,

Rick Maus
